To whom it may concern,

In my capacity as a Training Coordinator for the Kearfott Corporation I have been doing business with Data Solutions Plus for approximately a year and a half. I have found them to be extremely easy to deal with, from scheduling classes to customizing on-site training. Each person I have dealt with has treated me with a high degree of professionalism and courtesy, and have been a pleasure to do business with.

Several of our managers specifically request that their employees receive training through Data Solutions Plus; they cite small class sizes and extremely knowledgeable teachers among their reasons.

Overall I would highly recommend Data Solution Plus for training needs, and will continue to do business with them in the future.
